POLYMER COATED SULFATE OF POTASH

GAL-Xe ONE

Product Code:
7446350

micro 100 SGN
0-0-37.35

Utilizing next generation polymer coating to promote the controlled release of potash in a 0-0-37.35 Micro granule.

Micro 100 SGN size provides better distribution of nutrients

100% controlled release sulfate of potash to increase plant vigor

Potassium is known to have a strong influence on drought tolerance, cold hardiness and disease resistance.
