Directions

Calculate pond volume: $Length \times Width \times Depth \times 1000 = Total\ Litres$

Pond Treatment (based on number of Litres)

- AquaSpherePRO is available in 5 sizes: 3,600 • 45,000 • 180,000 • 900,000 • 1,800,000 Litres.

Example: To treat a 1,080,000 Litre pond it requires (1) 900,000 Litre AquaSpherePRO and (1) 180,000 Litre AquaSpherePRO per treatment.

Example: To treat a 5,400,000 Litre pond it requires (3) 1,800,000 Litre AquaSpherePRO per treatment.

- Repeat every 30 days
- It is safe to overtreat and at times recommended

Application Directions

- Start treatment as soon as water reaches 7 Degrees Celsius
- Spread spheres evenly throughout the pond
- Vary the placement of the spheres monthly
- Repeat every 30 days
