

The industry standard post-emergent, selective herbicide for couch

syngenta®

MONUMENT LIQUID Turf Herbicide is the best sedge, broadleaf and grass control partner in couch. It can be used for post-emergent weed management as well as for the suppression of seedhead in Bahia Grass when used in combination with PRIMO growth regulators.

What MONUMENT LIQUID offers you:

- Highly effective control of Winter Grass, Ryegrass, Kikuyu, sedges and a wide range of broadleaf weeds
- A convenient liquid formulation with low environmental loading
- Excellent resistance management strategy when used in combination with BARRICADE Turf Herbicide
- Fully systemic action with root, shoot and leaf uptake
- Effective management of Bahia Seedheads

Post-emergent control of *Poa annua*

Bahia Grass Seedheads

MONUMENT LIQUID can be used as a post-emergent herbicide on the following warm season turf species:

Warm Season Turf Grasses

Common Couch, Durban Grass, Hybrid Couch, Queensland Blue Couch, Zoysia

Refer to the registered label for full details.

To achieve great results, accurate application is important.

Target	Syngenta Nozzle	Optimal Water Rate	Optimal Pressure Range
Leaf and crown F	XC 04	400 to 800 L/ha	2 to 4 bar

MONUMENT LIQUID delivers long lasting herbicidal action with follow-up applications rarely needed (Kikuyu excluded).

Example: Autumn applications for Kikuyu suppression should ideally be applied around the end of March and repeated at the end of April. Applications to control *Poa annua* or Ryegrass should ideally be made when these weeds are still actively growing and not towards the end of the growing cycle when plants are alive but not actively growing.

Active weed growth = Systemic xylem and phloem movement essential for systemic herbicide action

Tips for achieving top results with MONUMENT LIQUID:

- Consider weed growth stage at time of application
- Consider the soil temperature at time of application
- Always apply with a non-ionic surfactant

Target Weeds	Rate	SpraySure
Burr Medic	115 mL/ha	F Su
Mullumbimby Couch, Nutgrass	150 mL/ha	F Su
Bindii, Ryegrass, Winter Grass	225 mL/ha	F Su

Target Weeds	Rate	SpraySure
Catsear, Chickweed, Clover, Cotula, Creeping Oxalis, Curled Dock, Milk Thistle	300 mL/ha	F Su
Kikuyu (suppression only)	300 mL/ha	F Su

Refer to the registered label for full details and instructions for use. **F** = Foliar applied **So** = Soil applied **Su** = Surfactant required

Active Ingredient

MONUMENT LIQUID contains 100 g/L trifloxysulfuron sodium, a member of the sulfonylurea herbicides

GROUP **B** HERBICIDE

Formulation and Packaging

100 mL and 1 L pack size

An oil dispersion formulation (OD) that mixes completely with water and produces a homogenous easy to apply suspension. Avoid very cold water in the tank.

MONUMENT LIQUID can be tank mixed with BARRICADE, PRIMO 250 EC and PRIMO MAXX.

Observe the mixing instruction for MONUMENT LIQUID with regards to water pH and the addition of a non-ionic surfactant (buffer solution prior to MONUMENT LIQUID addition to ~pH 7 and add a non-ionic surfactant at 0.25 to 0.42% v/v).
