

Eco Start

***A blend of natural ingredients to build a healthy soil
and enrich plant health***

Biologically Enhanced with Pro-Tech Stimulate

ECOSTART is biologically enhanced with Pro-Tech Stimulate. The active bacterial molecules in Pro-Tech Stimulate are coated on the fertiliser granules of ECOSTART to transport plant nutrients directly to metabolic sites within the plant cells. Pro-Tech Stimulate also contains help and fish emulsions, carbon and fulvic humates to invigorate the soil environment and promote healthy turf growth.

Granular fertiliser for turf and gardens

Typical Analysis (w/w)

Nitrogen (N) total %	3.08
Phosphorus (P) total %	2.76
Potassium (K) total %	1.65
Sulphur (S) %	5.09
Carbon	4.09
Calcium (Ca) %	6.35
Magnesium (Mg) %	0.50
Copper (Cu) %	0.02
Zinc (Zn) %	0.03
Manganese (Mn) %	0.06
Iron (Fe) %	1.02
Silicon %	2.92
Boron (B)	3.5186mg/kg
Molybdenum (Mo)	0.3374mg/kg
Cobalt (Co)	19.28mg/kg

Product Benefits

- Supplies essential plant nutrients for plant growth
- Rebuilds tired and worn soils through remineralisation
- Builds critical levels of many trace elements
- Increases soil carbon levels for energy, water and nutrient holding capacity
- Increases the ability for plants to resist pest and disease attack
- Greater biological activity in the soil promotes availability of both target and other tied-up nutrients in the soil
- Improved soil health reduces input costs through efficiency

Application Details

Turf:

4Kg - 8Kg/100m²

Use of the lower rate is recommended for general maintenance applications.

Use of the higher rate is recommended during renovation or construction.

Garden Beds:

1Kg/10m² of garden bed

Apply evenly to the garden bed out to the drip line of foliage.

Apply 4 times per year.
