

GREENS GRADE Dolomite WDG

Guaranteed Minimum Analysis

Calcium (Ca) 21%

Magnesium (Mg) 12%

A high performance dolomite granule suitable for use on low-cut sports turf. Ideal for correcting calcium & magnesium deficiencies in soil.

Application Rate:

Rate varies from 5-10kg/100m² depending on the amount of calcium & magnesium required, soil type & environment. An accurate treatment rate can be determined from the results of a soil analysis.
