

DuraTurf® Droughtmaster

Key features:

- Drought tolerant
- Deep green appearance
- Low fertility situations
- Low water requirement (once established)

DuraTurf® Droughtmaster is the ideal mix for any area with limited water supply and low fertility, but still provides a premium turf performance. DuraTurf® Droughtmaster is a blend consisting of tall fescue, ryegrass and fine fescue. DuraTurf® Droughtmaster can be used in areas such as golf course roughs, horticulture inter-row, landscaping environments or any situation where drought conditions prevail.

Cultivar	Species
Lagertha	Tall fescue
Currawong II	Tall fescue
Arena I	Perennial ryegrass
Survivor	Chewings fescue
