

SOILFIXMg

FINETURF GRANULAR

FERTILISER ANALYSIS

0.5%	Total Nitrogen (N) organic
0.3%	Total Phosphorous (P) organic
0.1%	Total Potassium (K) organic
5.7%	Total Sulphur (S) 3.0% organic 2.7% sulphate
6.0%	Total Calcium (Ca) 6.0% organic
16%	Total Magnesium (Mg) 13% organic 3% sulphate
0.3%	Total Manganese (Mn) as sulphate

PRODUCT OF AUSTRALIA

This fertiliser also contains traceable levels of Fe, B, Cu, Zn and Mo. Nutrient sources include the Terralift organic complex, humic acid and magnesium oxide.

Soilfix Mg lifts the root zone's ability to sustain turf performance by addressing magnesium deficiencies and improving soil structure.

- Boosts soil Mg levels at any pH (5.0-8.0)
- Builds CEC to support other applied NPK
- Includes the TX organic complex, Ca, Mn, B and minor trace elements

APPLICATION GUIDE

For greens, tees and hard worked grass

☞ 2kg/100m²

- ⌚ Apply up to 3 times per season. Separate each application by at least 3-4 weeks. For further advice please consult your Terralift representative.

☀ Spring and Autumn.

- ☞ Best applied using a fertiliser spreader. May be spread with a sand fill or top-dressing if desired (blend with top-dressing or apply under top-dressing and brush in).

⚠ Very low scorch risk, watering-in recommended.
