HERBICIDE

STORAGE AND DISPOSAL

Store in the closed, original container in a cool well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

SAFETY DIRECTIONS

Product will irritate eyes and skin. Avoid contact with eyes and skin. When using controlled droplet applicator wear protective waterproof clothing and impervious footwear. When preparing product for use wear elbow length PVC gloves and face shield or goggles. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves, face shield or goggles and contaminated clothing.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126, New Zealand 0800 764 766.

SDS

Additional information is listed in the safety data sheet (SDS). A safety data sheet for RAPID FIRE 510 SL is available from Indigo Specialty Products Pty Ltd on request.

CONDITIONS OF SALE:

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. No warranty (other than non-excludable statutory warranties) of merchantability or fitness for a particular purpose, express or implied, extends to the use of the product contrary to label instructions, or under off-label permits not endorsed by Indigo Specialty Products Pty Ltd or under abnormal conditions. Indigo Specialty Products Pty Ltd accepts no liability for any loss or damage arising from incorrect storage, handling or use.

Table with columns: WEEDS CONTROLLED, STATE, APPLICATION RATES (BOOM L/ha, HANDGUN VOL/100 L, KNAPSACK VOL/15 L), CRITICAL COMMENTS. Lists weeds like Prairie Grass, Sorrel, Soursob, etc.

BRUSH AND WOODY WEEDS

Table with columns: WEEDS CONTROLLED, STATE, RATE (HANDGUN VOL/100 L, KNAPSACK VOL/15 L), CRITICAL COMMENTS. Lists weeds like Bitou Bush, Blackberry, Box Thorn, etc.

AQUATIC WEED CONTROL

Reduction in effectiveness may result if more than 1/4 of the aboveground portion of the weed is submerged at treatment. Submerging the treated plants following treatment may result in the spray being washed from the plant surface, thus reducing effectiveness.

Table with columns: WEEDS CONTROLLED, STATE, APPLICATION RATES (BOOM L/ha, HANDGUN VOL/100 L, KNAPSACK VOL/15 L), CRITICAL COMMENTS. Lists weeds like Alligator Weed, Brown beetle grass, Cumbungi, etc.

Table with columns: SITUATION, WEEDS CONTROLLED, RATE, CRITICAL COMMENTS. Lists situations like Agricultural areas, Domestic areas, Forestry Situations, Horticultural Crops, Pasture, Peanuts, Cotton, etc.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

WITHOLDING PERIOD: NOT REQUIRED WHEN USED AS DIRECTED

GENERAL INSTRUCTIONS

Mode of Action
ProForce RAPID FIRE 510 SL Herbicide is a water soluble liquid herbicide. The product is non-selective and will control a wide range of emerged annual and perennial weeds.

Rain within 1 hour of application which causes run-off may require re-treatment. Rainfastness is reduced if weeds are not actively growing, under stress or conditions if low light intensity/darkness.

Crop Establishment - Where the product is used to control weeds prior to the establishment of a new crop or pasture it is important that the crop or pasture not be sown until a suitable seed bed is present.

MIXING AND APPLICATION
RAPID FIRE 510 SL may be applied by boom spray, air, knapsack, handgun or wiper application.

Boom Application
Spray volumes of 25-100 L water /ha are recommended with a fan nozzle at pressures of 240-280 kPa.

Wiper Equipment (eg ropewick, canvas, carpet or felt applicators)
May be used to apply the product in the situations as per the directions for use table. Weeds should be at least 15 cm above the crop and the wiper equipment should be operated at least 10 cm above the crop.

Aerial Application
Apply a minimum spray volume of 20 L/ha for Micronair and boom equipment. Use nozzles designed to deliver a MEDIUM-COARSE spray quality (ASAE S572) and the swath width 15 - 17 metres.

SURFACTANT
The addition of surfactant may improve weed control where water rates are high or product rates are low. Suggested surfactant rates are 200 mL/100 L of 1000 g/L non-ionic surfactant or 250-500 mL of 700 g/L surfactant.

MIXING
When the product is to be mixed with water it is important that clean water be used. Dirty water or hard water containing calcium salts may reduce the product's effectiveness.

COMPATIBILITY
The product may be mixed with a variety of products to enhance weed control, to broaden the spectrum of weeds and to add residual control. Refer to the "Directions for Use" Section for detailed information on the tank mix situations.

EQUIPMENT MAINTENANCE AND USAGE
RAPID FIRE 510 SL should ONLY be stored, mixed or applied in plastic or plastic lined, stainless steel, aluminium, copper, brass or fibreglass containers.

RESISTANT WEEDS WARNING
ProForce RAPID FIRE 510 SL Herbicide is a member of the Glycine group of herbicide. RAPID FIRE 510 SL has the inhibitor of EPSP synthase mode of action.

PRECAUTION
DO NOT store, mix or apply the product or spray solutions in unlined steel or galvanised containers as a highly flammable gas may form.

PROTECTION OF CROPS, NATIVE AND OTHER NON-TARGET PLANTS
This product is non selective and may severely injury or kill desirable plants should the product contact the foliage, green stems or fruit of such plants.

PROTECTION OF LIVESTOCK
There is no withholding period for this product, but removal of stock may be necessary to achieve efficacy. It is recommended that stock be removed from the area to be treated and only allowed to return 1 day after treatment of annual weeds and 7 days after treatment of perennial weeds.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT
DO NOT contaminate dams rivers or streams with the chemical or used containers. When controlling weeds near water, refer to label directions to minimise the entry of spray into the water.

STORAGE AND DISPOSAL (20 L only)
Store in the closed, original container in a cool well-ventilated area. DO NOT store for prolonged periods in direct sunlight.

STORAGE AND DISPOSAL (110 AND 1000 L only)
Store in the closed, original container in a cool, well ventilated area. DO NOT store for prolonged periods in direct sunlight.

SAFETY DIRECTIONS
Product will irritate eyes and skin. Avoid contact with eyes and skin. When using controlled droplet applicator wear protective waterproof clothing and impervious footwear.

FIRST AID
If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126, New Zealand 0800 764 766.
