

# ACTIVATE K

FINETURF GRANULAR WITH METHYLENE UREA

## FERTILISER ANALYSIS

8%	Total Nitrogen (N) 0.8% organic 2.3% ammonical 0.6% nitrate 4.3% ureic (0.9% water insoluble N)
16%	Total Potassium (K) 0.8% organic 15.2% water soluble
5.7%	Total Sulphur (S) 1.1% organic 4.6% inorganic
3.2%	Total Calcium (Ca) as organic
1%	Total Magnesium (Mg) 0.2% organic 0.8% sulphate
2%	Total Iron (Fe) 0.1% organic 1.9% sulphate

## PRODUCT OF AUSTRALIA

This fertiliser also contains traceable levels of Mn, B, Cu, Zn and Mo and is in the slightly acidic to neutral range. Nutrient sources include the Terralift organic complex and soya.

Activate K combines the Terralift organic complex with methylene urea technology. Delivering all the essential nutrients for healthy turf and ensuring the building blocks are in place for soil friability, water percolation and CEC within the root zone.

- High K formulation for turf strength
- Ideal for potassium deficient soils
- Creates tigher surfaces and deeper roots

## APPLICATION GUIDE

For greens, tees and high quality swards

- ☞ Heavy soils 1.5kg/100m<sup>2</sup>  
Standard rate 2.5kg/100m<sup>2</sup>  
Sand soils 4.0kg/100m<sup>2</sup>

🕒 8 weeks release.

☀️ Apply late spring to summer.

🧺 Best applied using a fertiliser spreader. May be spread with a sand fill or top-dressing if desired (blend with top-dressing or apply under top-dressing and brush in).

⚠️ Low scorch risk, watering-in recommended.  
Do not apply in frosty conditions.
