## DIRECTIONS FOR USE

**Important:** Prior to use read all directions on this label and on the label of the companion crop protection product. The product(s) label for the specific usage and restrictions have precedence over Directions for Use referred to on this label.

When mixing with atrazine water dispersible granule formulations, agitation is required.

Situations	Critical Comments
Broadacre cropping including fallow (except sugarcane)	Where specified use 500 mL Overtake Oil per 100 L water, applying a minimum of 250 mL of Overtake Oil per hectare.
Sugarcane and Cotton Defoliation	Where specified use 1 L Overtake Oil per 100 L water, applying a minimum of 500 mL of Overtake Oil per hectare.
Spot and High Volume Spraying	Where specified use 500 mL Overtake Oil per 100 L water, applying to the point of run-off.
Horticulture Overtake Oil is compatible with Verdict* 520 Herbicide for horticultural uses	Use 500 mL Overtake Oil per 100 L water, applying a minimum of 250 mL of Overtake Oil per hectare.

## NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

**WITHHOLDING PERIOD:** Adhere to the withholding period(s) specified on the label of the companion product(s) used.

## GENERAL INSTRUCTIONS

### MIXING

These are general mixing instructions. Always follow the mixing instructions of each ingredient in the tank-mix. Ensure product compatibility. Recommendations on other product labels take precedence over mixing instructions on this label.

- Add water to the spray tank to 10 cm above the level of agitation and ensure the agitation device is working vigorously (there must be a minimum of 100L of water in the tank before any pesticide is added).
- If tank mixing, use the following general order for mixing partners. First add water dispersible granules (e.g. Achieve WG Herbicide), second add flowable formulations (e.g. Atrazine), third add emulsifiable concentrates (e.g. Verdict 520 Herbicide), fourth add water-soluble liquids (e.g. Lontrel\* 750 SG Herbicide) and last add Overtake Crop Oil and other adjuvants.
- Between the additions of each ingredient allow at least one minute to ensure thorough mixing before the new tank-mix partner is added.
- Finally add Overtake Oil. Continue filling the tank to the required volume maintaining agitation at all times.
- Only mix sufficient spray solution for immediate use. Verdict 520 Herbicide and any other tank-mixes should be applied immediately for best results.

Overtake Oil is compatible with a wide range of herbicides including: Atrazine<sup>#</sup>, Broadstrike\* Herbicide, Eclipse\* 100 SC Herbicide, Garlon\* 600 Herbicide, Grazon\* Extra Herbicide, Lontrel\* 750 SG Herbicide, Starane\*, Advanced Herbicide, Topik\* 240 EC Selective Herbicide, Tordon\* 75-D Herbicide, Verdict\* 520 Herbicide, Tordon\* 242 Cereal Herbicide, Arysta Select Herbicide, Targa Herbicide, Fusilade WG Herbicide, Achieve WG Herbicide

# when mixing with atrazine water dispersible granule formulations, agitation is required.

Overtake Oil is compatible with cotton defoliant products such as: thidiazuron, ethephon.

Overtake Oil is compatible with the insecticides: chlorpyrifos (300 g/L), spinosad (480 g/L).

**Storage of Spray Solution:** Agitate for 1 hour every 8 hours and agitate for 1 hour before spraying out where spray solution is not applied within 8 hours of mixing.

**Cleaning Spray Equipment:** The presence of product(s) makes it essential for the spray equipment to be cleaned thoroughly between different applications. To rinse and decontaminate spray equipment refer to relevant product labels for instructions.

### STORAGE AND DISPOSAL

**Precaution – Explosion Warning:** Apparently 'Empty' containers may contain liquid and/or vapour, which can be explosive if exposed to an ignition source at temperatures above 90°C. Such conditions may occur during cutting or welding. DO NOT cut or weld these containers. Explosion may cause injury or death.

Store in the closed original, container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. DO NOT store near food, feedstuffs, fertiliser or seed. Triple rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. DO NOT burn empty containers or product.

### SMALL SPILL MANAGEMENT

Wear appropriate clothing whilst cleaning up small spills. Apply absorbent material such as earth, cat litter, sand or clay granules to the spill. Sweep up material for disposal when absorption is complete. Dispose of the contaminated material in accordance with local and/or State recommendations.

### PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used container.

### SAFETY DIRECTIONS

Will irritate the eyes. May irritate the skin. Avoid contact with eyes and skin. When opening container, preparing spray wear elbow-length PVC gloves and face shield or goggles. If product gets in eyes, wash it out immediately with water. Wash hands after use. After each day's use, wash gloves and face shield or goggles and contaminated clothing. When using with another chemical, consult the safety directions of the companion product.

### FIRST AID

If poisoning occurs, contact a doctor of Poisons Information Centre. Phone Australia 13 11 26.

### SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet that can be obtained from the supplier.
