

Turf Product Catalogue

Right Advice, Right Support, Right Products

Greenway Turf Solutions (GTS) is a privately owned, Australian company supplying innovative products, equipment and agronomic services to turf professionals across Australia and overseas.

Right Advice

Our team of Technical Field Agents is comprised of professional agronomists and turfgrass managers with decades of turf industry experience.

We are committed to delivering our valued customers the highest standard of scientifically based advice available in the Australian Turf Industry.

Right Support

We have a dedicated distribution and supply chain team that works across Australia from our numerous customer service centres.

Our customer service centres work tirelessly to ensure that the products our customers depend on are delivered when they are needed.

Right Products

Our experience allows us to apply an agronomic framework to each influencing factor affecting turf quality.

This ensures the products we recommend achieve the desired results for our customers.

We only supply quality brands from leading manufacturers of turf maintenance products.

Our services are founded upon our extensive experience working in the turfgrass industry, specifically in the field of soil and irrigation water analysis and turfgrass nutrition.

This local and international experience allows us to provide appropriate advice that is tailored to the specific needs of managers of professional turfgrass.

We provide a comprehensive assessment of the base soil nutritional conditions and influencing factors that are present.

From this assessment, appropriate remedial and plant nutrition programs are devised.

Our team also specialises in root zone specifications to provide optimal growing conditions during construction of turfgrass soil profiles.

The nutritional agronomic service that we offer is based around an analytical package that is unique in the Australian market.

This includes Soil, Irrigation Water, Saturated Soil, Tissue, and Physical Analysis.

It is the combination of these analytical tests rather than the reliance on just one type of test that provides the intelligence to adequately assess the soil nutritional conditions and solve nutrition related issues.

By utilising the latest technology in analytical testing, nutrition agronomy and information technology, the GTS Analytical Service:

1. Uses appropriate methods of analysis for turfgrass soils to provide the most reliable and accurate results achievable.
2. Produces recommendations that are based on scientific principles and the most extensive database compiled on turfgrass soils.
3. Makes analysis reports available online to clients through the internet.
4. Provides the quickest analysis turnaround time in the industry.

We can conduct assessments of biotic factors such as plant pathogens, parasitic nematodes and mites that negatively impact on turfgrass health.

Clients can select a specific diagnostic test to be carried out, or we can conduct a complete Turf Health Analysis to encompass all potential biotic limiting turfgrass performance.

Fungicides

Adama Chief® Topflo 625g/L Iprodione GROUP 2 FUNGICIDE	A water-based iprodione formulation providing locally systemic movement within the plant to treat a broad spectrum of turf diseases. Rate: 36mL-72mL/100m² Pack Size: 5L
Adama Quali-Pro Compass 500g/L Fluazinam GROUP 29 FUNGICIDE	A protectant fungicide that provides powerful contact activity on a range of turfgrass diseases. Rate: 10mL-15mL/100m² Pack Size: 1L
Adama Quali-Pro Enclave 365g/L Chlorothalonil + 119 g/L Iprodione + 119 g/L Thiophanate methyl + 36 g/L Tebuconazole GROUP M5 2 1 3 FUNGICIDE	Quad control fungicide technology with multi-site protection delivering strong eradicant, curative & preventative performance. Rate: 160mL-240mL/100m² Pack Size: 10L
Adama Quali-Pro Evolution 200g/L Tebuconazole + 120g/L Azoxystrobin GROUP 3 11 FUNGICIDE	A unique fungicide formulation combining 2 active ingredients that provide powerful systemic control of a broad range of turf diseases. Rate: 20mL-40mL/100m² Pack Size: 1L
Adama Quali-Pro I-Pro 365 365g/L Iprodione GROUP 2 FUNGICIDE	A suspo-emulsion formulation with improved rainfastness (over water-based formulations) for the control of fungal diseases in recreational turf. Rate: 65mL-125mL/100m² Pack Size: 5L
Bayer Banol® Turf & Ornamental 600g/L Propamocarb GROUP 28 FUNGICIDE	A systemic fungicide for the control of <i>Pythium</i> as a fast curative or in a preventative fungicide program. Rate: 45mL-65mL/100m² Pack Size: 1L
Bayer Bayfidan® Turf Fungicide 250g/L Triadimenol GROUP 3 FUNGICIDE	A highly effective, systemic fungicide with systemic activity on Dollar Spot, Take All Patch and other significant turfgrass diseases. Rate: 30mL-60mL/100m² Pack Size: 1L
Bayer Chipco® GT Fungicide 240g/L Iprodione GROUP 2 FUNGICIDE	An advanced iprodione formulation for fast acting disease control of Brown Patch, Dollar Spot, Helmo and Fusarium. Rate: 100mL-200mL/100m² Pack Size: 5L
Bayer Dedicate® Forte Stressgard 240g/L Tebuconazole GROUP 3 FUNGICIDE	A broad spectrum fungicide with Stressgard Formulation Technology for control of soil-borne and foliar diseases. Rate: 35mL/100m² Pack Size: 1L
Bayer Dedicate® Turf & Ornamental Fungicide 200g/L Tebuconazole + 100g/L Trifloxystrobin GROUP 3 11 FUNGICIDE	A contact and systemic fungicide to provide excellent protection over an extended period against ERI and patch diseases as well as foliar diseases. Rate: 20mL-30mL/100m² Pack Size: 1L
Bayer Exteris Stressgard® Turf Fungicide 12.5g/L Fluopyram + 12.5g/L Trifloxystrobin GROUP 7 11 FUNGICIDE	A next-generation turf fungicide containing a unique combination of two active ingredients for preventative and fast curative control of a broad spectrum of diseases. Rate: 100mL/100m² Pack Size: 5L
Bayer Interface® Stressgard® Turf Fungicide 256.4g/L Iprodione + 16g/L Trifloxystrobin GROUP 2 11 FUNGICIDE	A powerful combination delivering curative control and residual performance. Includes Stressgard Formulation Technology for improved turfgrass quality. Rate: 125mL/100m² Pack Size: 5L

Bayer Reserve™ Stressgard Fungicide 720g/L Chlorothalonil GROUP M5 FUNGICIDE	A contact and protectant fungicide that controls Dollar Spot, Brown Patch and Grey Leaf Spot. Includes Stressgard Formulation Technology for improved turfgrass quality. Rate: 130mL-240mL/100m² Pack Size: 10L
Bayer Signature Xtra Stressgard® 600g/Kg Fosetyl-Aluminium GROUP 33 FUNGICIDE	A systemic fungicide that is highly effective in controlling <i>Pythium</i> . Includes Stressgard Formulation Technology for improved turfgrass quality. Rate: 55g-165g/100m² Pack Size: 2.75Kg
Colin Campbell Dacogreen® 720 WeatherShield 720g/L Chlorothalonil GROUP M5 FUNGICIDE	A broad-spectrum fungicide for the control of various diseases in turf. Formulated with a surfactant package for improved product efficacy. Rate: 130mL-240mL/100m² Pack Size: 10L
Colin Campbell Emerald® Fungicide 500g/L Fluazinam GROUP 29 FUNGICIDE	A unique mode of action group that is ideal for fungicide rotation and resistance management. Effectively controls Dollar Spot, Anthracnose, Helminthosporium and Grey Leaf Spot. Rate: 10mL-15mL/100m² Pack Size: 1L
Colin Campbell Flowable TMTD® 600g/L Thiram GROUP M3 FUNGICIDE	A liquid thiram for the control of Brown Patch, Helmo Leaf Spot, Fusarium and Damping Off in turf. Rate: 160mL-200mL/100m² Pack Size: 10L

Stressgard®

Stressgard isn't just one product, but a whole portfolio that gives you flexibility and versatility; helping you deliver consistent, high quality playing surfaces under any conditions. Proven in independent research to enhance plant processes such as photosynthesis and chlorophyll production, the Bayer Stressgard range of fungicides works on the inside and outside of the plant to protect turf from fungal attack, heat, drought, traffic, shade and excess solar radiation, so you can play on, no matter what.

Fungicides

Colin Campbell Liquid Dek® 420g/L Mancozeb GROUP M3 FUNGICIDE	A liquid version of Dek DF for easy application to control Fusarium, Brown Patch and Helmo in turfgrass. Rate: 335mL-415mL/100m² Pack Size: 10L
Colin Campbell Monstar® SC 464g/L Flutolanil GROUP 7 FUNGICIDE	Controls Fairy Ring in turfgrass. Rate: 150mL-200mL/100m² Pack Size: 5L
Colin Campbell Proplant® 605g/L Propamocarb GROUP 28 FUNGICIDE	A systemic fungicide that is used for the control of Damping Off in recreational turf caused by <i>Pythium</i> spp. Rate: 45mL-65mL/100m² Pack Size: 1L
Colin Campbell Sceptre® 230SC 230g/L Fludioxonil GROUP 12 FUNGICIDE	A contact fungicide with a high active ingredient loading for outstanding disease control at lower use rate. Rate: 16mL/100m² Pack Size: 1L, 5L
Colin Campbell Tridim® 250 EC 250g/L Triadimenol GROUP 3 FUNGICIDE	A trusted fungicide formulation for the control of several turfgrass diseases including Dollar Spot, Take All Patch, Fusarium and Black Helmo. Rate: 30mL-60mL/100m² Pack Size: 1, 5L
Colin Campbell Vorlon® 500 SC 500g/L Thiabendazole GROUP 1 FUNGICIDE	A protectant fungicide for use when the first signs of Dollar Spot and Fusarium occur in turf. Repeat applications at 2-3 week intervals. Rate: 38mL-76mL/100m² Pack Size: 5L
Indigo Azo-Force 250SC 250g/L Azoxystrobin GROUP 11 FUNGICIDE	A broad-spectrum fungicide that delivers consistent protection against Anthracnose, Brown Patch, Fusarium, Pythium and other diseases. Rate: 12mL-23mL/100m² Pack Size: 2.5L
Indigo ProForce Grenadier 800WG 800g/Kg Fosetyl-Aluminium GROUP 33 FUNGICIDE	A quality wettable granule formulation of Fosetyl-Aluminium providing systemic disease control. Rate: 125g/100m² Pack Size: 5Kg
Indigo ProForce Regiment 550 550g/L Propiconazole GROUP 3 FUNGICIDE	A highly concentrated form of propiconazole for economical control of Dollar Spot and Spring Dead Spot in various turfgrass situations. Rate: 14mL-28mL/100m² Pack Size: 10L
Indigo ProForce Shrapnel 600 600g/L Propamocarb GROUP 28 FUNGICIDE	Fast curative and reliable prevention of Pythium diseases. Rate: 45mL-65mL/100m² Pack Size: 5L
Indigo ProForce Solitaire 240ME 240g/L Metalaxyl-M GROUP 4 FUNGICIDE	A micro emulsion (ME) formulation of Metalaxyl-M providing targeted disease control. Rate: 17mL-35mL/100m² Pack Size: 1L
Indigo ProForce Squadron Weatherace 720g/L Chlorothalonil GROUP M5 FUNGICIDE	Provides preventative/early curative control of Brown Patch, Dollar Spot and Grey Leaf spot. Rate: 130mL-240mL/100m² Pack Size: 10L
Indigo ProForce Tombstone Duo 200g/L Tebuconazole + 100g/L Trifloxystrobin GROUP 3 11 FUNGICIDE	A broad spectrum contact and systemic fungicide delivering strong disease protection in all weather conditions. Rate: 20mL-30mL/100m² Pack Size: 500mL, 1L
Indigo ProForce Voltar GT 250SC 250g/L Iprodione GROUP 2 FUNGICIDE	An oil based, SC formulation of Iprodione with improved rainfast properties that provides control of a broad spectrum of diseases. Rate: 90mL-180mL/100m² Pack Size: 5L

Sumitomo Shiba 500g/L Tolclofos-Methyl GROUP 14 FUNGICIDE	A Group 14 Fungicide that is ideal for chemical rotation to provide control of Brown Patch, Dollar Spot and a range of other turfgrass diseases. Rate: 80mL-100mL/100m² Pack Size: 2.5L
Syngenta Banner Fairway 250g/L Propiconazole GROUP 3 FUNGICIDE	Provides effective prevention of Spring Dead Spot in broad acre turf situations such as fairways and sporting fields. Rate: 30mL-60mL/100m² Pack Size: 20L
Syngenta Banner Maxx 155g/L Propiconazole GROUP 3 FUNGICIDE	A xylem systemic fungicide that protects against infection from Spring Dead Spot, Dollar Spot, Brown Patch and a variety of other turfgrass diseases. Rate: 50mL-100mL/100m² Pack Size: 5L
Syngenta Daconil WeatherStik 720g/L Chlorothalonil GROUP M5 FUNGICIDE	A contact fungicide with improved wetting and dispersing agents to protect against Dollar Spot, Brown Patch, Grey Leaf Spot and other diseases. Rate: 130mL-240mL/100m² Pack Size: 10L
Syngenta Headway Maxx 62g/L Azoxystrobin + 104g/L Propiconazole GROUP 3 11 FUNGICIDE	A dual systemic fungicide to control and protect against a broad spectrum of turfgrass diseases such as; Take All Patch, Dollar Spot, <i>Pythium</i> and Fusarium. Rate: 90mL/100m² Pack Size: 5L
Syngenta Heritage Maxx 95g/L Azoxystrobin GROUP 11 FUNGICIDE	A systemic, preventative fungicide that moves upwards within the plant. Protects against a broad spectrum of diseases in a preventative program. Rate: 60mL/100m² Pack Size: 1L, 5L
Syngenta Instrata 362g/L Chlorothalonil + 57g/L Propiconazole + 14.5g/L Fludioxonil GROUP 3 M5 12 FUNGICIDE	A 3-way mix of active ingredients to reduce chemical resistance. Protects against diseases such as Brown Patch, Dollar Spot and Fusarium. Rate: 180mL/100m² Pack Size: 10L
Syngenta Medallion 125g/L Fludioxonil GROUP 12 FUNGICIDE	A broad-spectrum fungicide with enhanced rain-fastness for improved protection against hard to kill pathogens in the thatch and on the soil surface. Rate: 30mL/100m² Pack Size: 5L
Syngenta Posterity 200g/L Pydiflumetofen GROUP 7 FUNGICIDE	A targeted SDHI fungicide that delivers excellent control of turfgrass diseases. Rate: 5mL-10mL/100m² Pack Size: 500mL
Syngenta Subdue Maxx 240g/L Metalaxyl-M GROUP 4 FUNGICIDE	A rapidly absorbed, systemic fungicide for the preventative and early curative control of <i>Pythium</i> spp. diseases. Rate: 17mL-35mL/100m² Pack Size: 1L
Syngenta Velista 500g/Kg Penthiopyrad GROUP 7 FUNGICIDE	A powerful broad-spectrum fungicide with a novel mode of action making it a powerful rotation partner in a resistance management program. Rate: 10g-15g/100m² Pack Size: 500g
Turf Culture Azoxy 95 Fungicide 95g/L Azoxystrobin GROUP 11 FUNGICIDE	A xylem systemic fungicide providing protection against Anthracnose, Brown Patch, Grey Leaf Spot, Helmo, Read Thread, Winter Fusarium and Pythium. Rate: 60mL/100m² Pack Size: 1L, 5L
Turf Culture Nobility Systemic Fungicide 800g/L Fosetyl GROUP 33 FUNGICIDE	A xylem and phloem systemic fungicide that is rapidly absorbed and provides protection against Pythium for 21 days. Rate: 125g/100m² Pack Size: 2.5Kg
Turf Culture Impala 96g/L Azoxystrobin + 194g/L Triticonazole GROUP 3 11 FUNGICIDE	Broad spectrum control of various diseases in turf such as anthracnose, brown patch, helminthosporium, take-all patch, fusarium, dollar spot, <i>Pythium</i> spp, spring dead spot and couchgrass decline. Rate: 60mL/100m² Pack Size: 1L, 5L

Client Testimonials

"The agronomic program approach GTS offered made sense for me at Keperra.

It was refreshing to have qualified agronomists to talk technical aspects of my program with.

We know exactly what nutrients we are applying and why, and GTS assist us in developing logical pesticide programs based on turf response and weather events.

Having a base program at hand to support my decision making takes one thing off my plate to worry about.

The greens are looking and playing great and while the members are happy so am I."

~ Keith Johnson,
Course & Property Maintenance
Superintendent,
Keperra Country Golf Club

"The GTS team have been great for our business.

From sound recommendations with our soil and water test results we could considerably improve the quality of turf we are producing.

Finally, an Australian company understanding and supporting the turf farmer's needs."

~ John Keleher, Owner,
Australian Lawn Concepts

"I look to form partnerships with my key product suppliers.

GTS has been an integral part of formulating my programs at Sanctuary Cove Golf & Country Club, and the results speak for themselves.

The advice from Paul Spencer of GTS is invaluable, and is based on an analytical approach rather than pushing products."

~ Paul McLean, Course Superintendent,
Sanctuary Cove Golf & Country Club

Adama 3D 192g/L Bentazone + 112g/L MCPA + 19g/L Dicamba GROUP C I HERBICIDE	A selective herbicide with dual modes of action that controls Mullumbimby Couch and Broadleaf Weeds. Rate: 6L-20L/Ha Pack Size: 10L
Adama Bronco® MA-X 280g/L Bromoxynil + 280g/L MCPA GROUP C I HERBICIDE	A 28.5% stronger formulation over products with the same active ingredients for selective control of broadleaf weeds. Rate: 4.3L/Ha Pack Size: 20L
Adama Fairway® 280g/L MCPA + 140g/L Bromoxynil + 40g/L Dicamba GROUP C I HERBICIDE	A three-way mix of active ingredients for the selective control of broadleaf weeds such as Bindii, Clover and Oxalis. Rate: 4L-5L/Ha Pack Size: 10L
Adama Gauntlet 720g/L MSMA GROUP Z HERBICIDE	A selective herbicide for controlling certain grass weeds in turf areas of couch and hybrid. Rate: 6.6L/Ha Pack Size: 10L
Adama Quali-Pro Crest 2.5g/L Florasulam + 100g/L Fluroxypyr GROUP B I HERBICIDE	A powerful systemic, multi-active broadleaf herbicide with excellent turf safety characteristics. Rate: 1L-2L/Ha Pack Size: 5L
Adama Quali-Pro Negate 200g/Kg Metsulfuron-Methyl + 167g/Kg Rimsulfuron GROUP B HERBICIDE	A dual-active herbicide for control of grass and broadleaf weeds in turfgrass situations. Rate: 110g/Ha Pack Size: 110g
Adama Quali-Pro Nutmeg 480g/L Bentazone GROUP C HERBICIDE	A selective herbicide for the control of sedges and broadleaf weeds in cool and warm season turf. Rate: 2L-4L/Ha Pack Size: 5L
Adama Quinstar 200g/L Quinclorac GROUP I HERBICIDE	A powerful systemic, quinclorac based grass and broadleaf weed herbicide in a high strength, easy to use liquid form. Rate: 4.1L/Ha Pack Size: 5L
Adama Stadium 300g/L MCPA + 20g/L Clopyralid + 15g/L Diflufenican GROUP F I HERBICIDE	A broadleaf herbicide that controls Bindii, Clover, Oxalis and many other broadleaf weeds. Rate: 5L/Ha Pack Size: 10L
Bayer Destiny® Selective Turf Herbicide 100g/kg Iodosulfuron-Methyl-Sodium GROUP B HERBICIDE	A versatile selective herbicide that is effective on numerous broadleaf weeds as well as Onion Grass, Ryegrass and Winter Grass. Rate: 25g-150g/Ha Pack Size: 250g
Bayer Ronstar® Turf & Ornamental 20g/Kg Oxadiazon GROUP G HERBICIDE	A pre-emergent herbicide with foliar uptake to limit and impact on root development. Effectively controls various broadleaf and grass weeds. Rate: 150Kg-200Kg/Ha Pack Size: 15Kg

Bayer Spearhead® Selective Turf Herbicide 300g/L MCPA + 20g/L Clopyralid + 15g/L Diflufenican GROUP FI HERBICIDE	The leading brand of broadleaf herbicide on the turf market. Controls Bindii, Clover, Oxalis and many other broadleaf weeds. Rate: 5L/Ha Pack Size: 10L
Bayer Specticle® 200g/L Indaziflam GROUP O HERBICIDE	A selective pre-emergent herbicide for the control of Winter Grass, Summer Grass and Crowsfoot Grass in warm season turf. Rate: 250mL/Ha Pack Size: 1L
Bayer Tribute® Selective Herbicide 22.5g/L Foramsulfuron GROUP B HERBICIDE	A selective herbicide that provides control of grass weeds such as Crowsfoot Grass, Winter Grass and Ryegrass in Green Couch. Rate: 1.5L-2L/Ha Pack Size: 1L
Colin Campbell Methar Tri Kombi® 336g/L Mecoprop + 80g/L 2,4-D + 40g/L Dicamba GROUP I HERBICIDE	A non-ester formulation that controls broadleaf weeds such as Clover, Creeping Oxalis and Bindii. Rate: 3L-4.2L/Ha Pack Size: 5L
Colin Campbell Passtox® Clear 220g/L DSMA GROUP Z HERBICIDE	A selective herbicide controlling problematic grass weeds such as Paspalum, Summer Grass and Crab Grass. Rate: 25L-66L/Ha Pack Size: 10L

Herbicides

Colin Campbell Poachek® 175g/L Endothal GROUP K HERBICIDE	A selective herbicide to control annual Winter Grass in numerous turfgrass situations. Rate: 1.5L/Ha Pack Size: 5L
Colin Campbell PoaCure 240g/L Methiozolin GROUP Z HERBICIDE	A selective herbicide to control annual Winter Grass in numerous turfgrass situations. Rate: 2L-4L/Ha Pack Size: 1L
Colin Campbell Sportsground® Herbicide 336g/L Mecoprop + 80g/L MCPA + 40g/L Dicamba GROUP I HERBICIDE	A combination of 3 active ingredients to control numerous broadleaf weeds in turfgrass situations. Rate: 3L-4.2L/Ha Pack Size: 10L
Colin Campbell Stature 250g/L MCPA + 150g/L Bromoxynil + 25g/L Diflufenican GROUP F C I HERBICIDE	3-way herbicide safe on all grasses for powerful broadleaf weed control. Rate: 500mL-2L/Ha Pack Size: 5L
Farmalinx OxaFert® Herbicide & Fertiliser 16-2-6 + 1.5% Fe, 0.2% Mn 10g/Kg Oxadiazon GROUP G HERBICIDE	A combination product containing fertiliser and pre-emergent herbicide for the control of Crowsfoot Grass, Summer Grass, Winter Grass and Oxalis. Rate: 300Kg-400Kg/Ha Pack Size: 20Kg
Indigo ProForce Battalia 435 435g/L Pendimethalin GROUP D HERBICIDE	A selective pre-emergent herbicide for the control of Crowsfoot Grass, Winter Grass and Summer Grass. Rate: 2.3L-3.4L/Ha Pack Size: 20L
Indigo ProForce Checkpoint 500SC 500g/L Propyzamide GROUP D HERBICIDE	A selective herbicide providing effective pre & early post-emergent control of Winter Grass. Rate: 0.6L-1.2L/Ha Pack Size: 5L
Indigo ProForce Contra M Duo 340g/L MCPA + 80g/L Dicamba GROUP I HERBICIDE	A 2-way mix of active ingredients for selective control of broadleaf weeds such as Bindii, Clover and Oxalis. Rate: 6.5L/Ha Pack Size: 1L, 5L, 20L
Indigo ProForce Destro 375g/L Diclofop-Methyl GROUP A HERBICIDE	A selective post emergent herbicide for use in warm season turf to control Crowsfoot Grass. Rate: 1L-2.5L/Ha Pack Size: 20L
Indigo ProForce Duke 100g/kg Iodosulfuron-Methyl-Sodium GROUP B HERBICIDE	A versatile selective herbicide in a water dispersible granule that is effective on numerous broadleaf and grass weeds. Rate: 25g-150g/Ha Pack Size: 100g
Indigo ProForce ProSedge 750 750g/Kg Halosulfuron-Methyl GROUP B HERBICIDE	A selective herbicide in a dry flowable formulation that controls Nutgrass and Mullumbimby Couch in turf. Rate: 65g-130g/Ha Pack Size: 500g

Indigo ProForce Rapid Fire 510 510g/L Glyphosate GROUP M HERBICIDE	A high active ingredient loading of glyphosate as the isopropylamine salt for the control of a broad range of annual and perennial weeds. Rate: 1L-6.3L/Ha 3.5mL-10mL/L of water Pack Size: 20L
Indigo ProForce Rapid Fire 800SG 800g/Kg Glyphosate GROUP M HERBICIDE	A high active ingredient loading of glyphosate as the acid and ammonium salt in a patented soluble granule formulation. Aquatically registered for use in waterways. Rate: 0.9L-4Kg/Ha 2.25g-7g/L of water Pack Size: 10Kg
Indigo Warhead Trio 300g/L MCPA + 20g/L Clopyralid + 15g/L Diflufenican GROUP F I HERBICIDE	A targeted broadleaf herbicide that controls Bindii, Clover, Oxalis and many other broadleaf weeds in recreational turf situations. Rate: 5L/Ha Pack Size: 10L
Ozcrop Glyphosate 450 Xtraquatic 450g/L Glyphosate GROUP M HERBICIDE	A non-selective and non-residual herbicide with a high active ingredient loading to control a broad range of annual and perennial weeds. Aquatically registered for use in waterways. Rate: 0.24L-7.2L/Ha 4mL-16mL/L of water Pack Size: 20L

A pre-emergent
like no other

Spect(i)cle®

Apply less. Achieve more.

Specticle® is an innovative herbicide for warm-season turf, which delivers exceptional pre-emergent control of *Poa annua*, Crowsfoot, Summer grass and a range of broadleaf weeds for up to 8 months.

- // Superior turf quality and playability
- // Reduced number of herbicide applications
- // Unmatched use flexibility with a wide application window
- // Effective management of weed resistance

Technical Enquiries: 1800 804 479 es.bayer.com.au

Herbicides

Sumitomo Nominee 100 g/L Bispyribac-Sodium GROUP B HERBICIDE	A selective herbicide for the control and suppression of Poa annua in Creeping Bentgrass, Tall Fescue, Perennial Ryegrass and Couch. Rate: 250mL-1L/Ha Pack Size: 500mL
Syngenta Barricade 480g/L Prodiamine GROUP D HERBICIDE	A pre-emergent herbicide for use on established turf, garden beds and nursery pots to prevent the occurrence of weeds such as Crowsfoot Grass, Summer Grass, Winter Grass, Paspalum and many other weeds. Rate: 1L-4L/Ha Pack Size: 1L, 5L
Syngenta Casper 500g/Kg Dicamba + 50g/Kg Prosulfuron GROUP B I HERBICIDE	A mixture of 2 active ingredients for the selective post-emergent control of broadleaf weeds such as Bindii, Clover, Oxalis and many others. Rate: 600g-1.2Kg/Ha Pack Size: 1Kg

Insecticides

Adama Qualipro Twister 80g/L Novaluron + 320g/L Indoxacarb (75:25) GROUP 15 22A INSECTICIDE	A new generation insecticide for control of turfgrass pests. Rate: 3L/Ha Pack Size: 1L
Bayer Indemnify Turf Nematicide 400g/L Fluopyram	Indemnify is a next generation, easy-to-use nematicide that controls key plant parasitic nematodes. Rate: 625mL/Ha Pack Size: 500mL
Bayer Merit® 200g/L Imidacloprid GROUP 4A INSECTICIDE	A broad spectrum, systemic insecticide which is highly effective for the control of African Black Beetle, Argentinian Scarab, Pruinose Scarab and Larvae of Billbug. Rate: 2.5L/Ha Pack Size: 5L
Bayer Tempo® Xtra 50g/L Imidacloprid + 25g/L Beta-cyfluthrin GROUP 3A 4A INSECTICIDE	A dual model of action insecticide to control tough pests such as Armyworm, Billbug, Argentine Stem Weevil, African Black Beetle, Mole Crickets, Couch Mites and Ants. Rate: 400mL-5L/Ha Pack Size: 5L
Bayer Tetrino® 42.8g/L Tetraniliprole GROUP 28 INSECTICIDE	A fast acting and long-lasting insecticide for protection against a broad spectrum of pests. Rate: 1.15L-2.3L/Ha Pack Size: 3L
Colin Campbell Apollo SC Miticide 500g/L Clofentezine GROUP 10A INSECTICIDE	An ovicidal miticide for the control of couch mite. Rate: 500mL/Ha Pack Size: 1L, 5L
Colin Campbell Moxam 250g/L Thiamethoxam GROUP 4A INSECTICIDE	A systemic insecticide which is highly effective at low use rates and delivers outstanding control of African Black Beetle and Billbug. Rate: 800mL-1.2L/Ha Pack Size: 5L
Indigo ProForce Malice 18 18g/L Abamectin GROUP 6 INSECTICIDE	A translaminar miticide in an emulsifiable concentrate formulation that provides residual control of mites. Rate: 2L/Ha Pack Size: 5L
Indigo ProForce Malice Duo 18g/L Abamectin + 187.5g/L Clofentezine GROUP 10A 6 INSECTICIDE	A dual-active miticide that provides both effective knockdown and residual control of the adult, egg and early larval stage of the lifecycle. Rate: 1.35L/Ha Pack Size: 1L, 5L
Indigo ProForce Recruit 200g/L Imidacloprid GROUP 4A INSECTICIDE	A broad spectrum, systemic insecticide which is highly effective for the control of African Black Beetle, Argentinian Scarab, Pruinose Scarab and Larvae of Billbug. Rate: 2.5L/Ha Pack Size: 1L, 5L
Indigo ProForce Rumbler 100SC 100g/L Bifenthrin GROUP 3A INSECTICIDE	A low odour formulation of bifenthrin to control numerous insect pests. Rate: 1.2L-4.4L/Ha Pack Size: 1L, 5L
Sumitomo Finesse 110g/L Etoxazole GROUP 10B INSECTICIDE	Prevents the build-up of damaging mite populations by sterilising adult females, preventing egg hatch and killing larvae and nymphs. Rate: 200mL/Ha Pack Size: 500mL
Syngenta Acelepryn 200g/L Chlorantraniliprole GROUP 28 INSECTICIDE	A non-scheduled insecticide for long-term residual control of African Black Beetle, Argentine Stem Weevil, Argentinian Scarab, Billbugs and other insect pests in turf. Rate: 750mL-1.5L/Ha Pack Size: 750mL

Syngenta Acelepryn GR 2g/Kg Chlorantraniliprole GROUP 28 INSECTICIDE	A 150SGN granular formulation of Acelepryn. A non-scheduled long-term residual insecticide for the control of various insect pest of turf. Rate: 75Kg-150Kg/Ha Pack Size: 10Kg
Syngenta Agador 20g/L Abamectin GROUP 6 INSECTICIDE	A unique chelated formulation of abamectin that delivers fast knock down of Couch Mites and Nematodes. Rate: 1L-2L/Ha Pack Size: 1L, 5L
Syngenta Higran 500g/L Diafenthiuron GROUP 12A INSECTICIDE	A turf miticide that provides up to 4 weeks residual control of Couch Mites. Best results are achieved when used following an application of Agador. Rate: 500mL/Ha Pack Size: 1L
Syngenta Meridian 250g/kg Thiamethoxam GROUP 4A INSECTICIDE	A fast-acting insecticide with excellent residual activity on numerous insect pests including African Black Beetle, Argentinian Scarab and Billbug. Rate: 800g-1.2Kg/Ha Pack Size: 1Kg
Syngenta Provaunt 200g/Kg Indoxacarb (S:R 3:1) GROUP 22A INSECTICIDE	Controls adult and larvae stages of Argentine Stem Weevils as well as caterpillars. Rate: 375g-1.25Kg/Ha Pack Size: 500g
Syngenta Spinner 200g/kg Cyantraniliprole 200g/kg Thiamethoxam GROUP 4A 28 INSECTICIDE	A 2-way combination insecticide that control of the larvae of multiple insect pests such as Argentine Stem Weevil, African Black Beetle and Caterpillars. Rate: 500g-1Kg/Ha Pack Size: 1Kg

Proven long lasting weed and insect control

SPRING

SUMMER

(pre-emergent weeds)

(turf damaging grubs)

Spring into action with long lasting weed and insect control you can rely on. BARRICADE® Herbicide and ACELEPRYN® Insecticide set the standards for season long control with ease of application along with exceptional user and environmental safety.

Tank mixing ACELEPRYN® and BARRICADE® means one application can provide up to 6 months control of grubs and weeds, saving time and money.

Adama Quali-Pro Marvel Ultra 120 ME <i>120g/L Trinexapac-ethyl</i>	A micro emulsion formulation of trinexapac-ethyl for reducing cell elongation and internode length to produce a tighter turfgrass surface. Rate: 1.5mL-80mL/100m² Pack Size: 5L
Indigo ProForce Amigo 120 ME <i>120g/L Trinexapac-ethyl</i>	A micro emulsion formulation of trinexapac-ethyl for reducing cell elongation and internode length to produce a tighter turfgrass surface. Rate: 1.5mL-80mL/100m² Pack Size: 5L
Indigo ProForce Incognito 480 SL <i>480g/L Ethephon</i>	For the suppression of <i>Poa annua</i> (Wintergrass) seed head emergence in turfgrass. Rate: 700mL-1L/100m² Pack Size: 10L
Indigo ProForce Regulate <i>200g/L Paclobutrazol</i>	A plant growth regulator used for the suppression of <i>Poa annua</i> (Wintergrass) and growth regulation in turfgrass. Rate: 5mL-28mL/100m² Pack Size: 2.5L
Syngenta Primo 250 EC <i>250g/L Trinexapac-ethyl</i>	Decreases cell elongation and internode length to produce a tighter and denser turfgrass surface. Well suited for use on broadacre turf areas. Rate: 2mL-40mL/100m² Pack Size: 5L
Syngenta Primo Maxx <i>120g/L Trinexapac-ethyl</i>	A Maxx formulation of Primo for use on sensitive turf areas. Decreases cell elongation and internode length to produce a tighter turfgrass surface. Rate: 1.5mL-80mL/100m² Pack Size: 5L

CONTROLLED RELEASE NUTRITION

Terralift TX10 5-2-8 4.2% Ca + Traces	A multi-source organic fertiliser consisting of stable humus, seaweed extract, vegetable extract and proteins which are all used to increase CEC. Rate: 1.5Kg-5Kg/100m² Pack Size: 20Kg
Terralift Activate K 8-0-16 3.2% Ca, 1% Mg, 2% Fe + Traces	A high potassium formulation for correction soil deficiencies and promoting turf strength. Bio-enhanced with the Terralift Organic Complex. Rate: 1.5Kg-4Kg/100m² Pack Size: 20Kg
Terralift Activate N 18-1-4 2.4% Ca, 2% Mg + Traces	An excellent maintenance and renovation fertiliser for a dense turf sward. Bio-enhanced with Terralift Organic Complex. Rate: 1.5Kg-4Kg/100m² Pack Size: 20Kg
Terralift Soilfix K Ca 10% K, 10% Ca, 3% Mg + Traces	Potassium and calcium combined with the Terralift Organic Complex to correct nutritional deficiencies. Rate: 2Kg/100m² Pack Size: 20Kg
Terralift Soilfix Mg 16% Mg, 6% Ca + Traces	Improves the root zone's ability to sustain turf performance by boosting the CEC of the soil. Corrects and maintains soil magnesium levels. Rate: 3Kg-5Kg/100m² Pack Size: 20Kg
Terralift TX Trace 3-0-5 2% Ca, 2% Mg, 5.5% Fe, 5% Mn, 0.5% Zn, 0.5% Cu	Terralift Organic Complex with all the essential trace elements required for turf grass. Rate: 2Kg/100m² Pack Size: 20Kg
Lesco Greenstart Elite® 12-10-11 0.2% Fe, 0.2% Mn 45% PolyPlus	A balanced NPK analysis suitable for turf establishment or growth at renovation. Can correct phosphorus deficiency in the soil or plant. Rate: 2.1Kg/100m² Pack Size: 22.68Kg
Lesco Supreme K Elite® 14-0-21 1% Fe, 0.5% Mn 60% PolyPlus	A high potassium analysis fertiliser with maintenance rates of nitrogen to condition turf without excessive flushes of growth. Rate: 1.8Kg/100m² Pack Size: 22.68Kg
Lesco Ultimate Elite® 18-1-15 1.5% Fe, 1% Mn 68% PolyPlus	A balanced nitrogen and potassium greens fertiliser with maintenance rates of phosphorus, plus iron and manganese. Rate: 1.4Kg-2.8Kg/100m² Pack Size: 22.68Kg
Best Greens King® 20-1-16 20-1-16 0.6% Fe, 0.3% Mn, 0.3% Zn 82% Nutralene®	A high quality and well-balanced N:K fertiliser with 82% N as methylene urea. Rate: 1.2Kg-2.4Kg/100m² Pack Size: 22.68Kg
Best Greens King® High K 10-1-19 2% Fe, 1% Mn 52% Nutralene®	A high potassium greens grade fertiliser containing 52% N as methylene urea. Rate: 1.6Kg-3.6Kg/100m² Pack Size: 22.68Kg
Best Greens King® Starter 10-9-17 1.4% Fe 47% Nutralene®	A greens grade fertiliser that is high in phosphorus to encourage turf establishment. Contains 47% N as methylene urea (Nutralene®). Rate: 2.3Kg/100m² Pack Size: 22.68Kg
Simplot Gal-XE One 0-0-37 0-0-37 100%PCSOP	A greens grade polymer coated sulphate of potash (PCSOP) to prolong the availability of potassium to the turf for up to 8 weeks. Rate: 1.3Kg-2.7Kg/100m² Pack Size: 22.68Kg

UPFRONT NUTRITION

Best Micro Green 10 10-1-13 3% Fe, 0.5% Mn	A homogeneous High-K formulation that is low in chlorides. It also features 3% Fe and 0.5% Mn elements to assist with colour with all nutrients being immediately available. Rate: 1.6Kg-3.7Kg/100m² Pack Size: 22.68Kg
Best SoP Greens Grade 0-0-41	Micro-sized sulphate of potash for overcoming potassium deficiencies and improving stress tolerance. Rate: 0.5Kg-1.5Kg/100m² Pack Size: 22.68Kg

Mini Granular Fertilisers

STABILISED NUTRITION

GTS Couch Pro Mini Maxx 23 - 0 - 11 84% UMAXX® 5% Ca, 2% Fe, 1% Mn, 3% Mg	A balanced maintenance fertiliser containing UMAXX® stabilised nitrogen. Includes calcium and magnesium for cell development and plant strength. Rate 2Kg-3Kg/100m² Pack Size: 20Kg
GTS Nitro Pro Mini Maxx 31-0-18 50% UMAXX®	A high nitrogen and potassium fertiliser containing 50% N as UMAXX® stabilised nitrogen. Ideal for use when rapid growth is required. Rate: 1Kg-2Kg/100m² Pack Size: 20Kg
GTS NK Mini Maxx 26-0-23 70% UMAXX®	A balanced nitrogen and potassium fertiliser based on UMAXX® stabilised nitrogen technology. Specially formulated to be applied as a granule or a liquid. Rate: 1.5Kg-3Kg/100m² Pack Size: 20Kg
UMAXX 46-0-0 100% UMAXX®	A highly soluble stabilised nitrogen that can be applied as a granular or dissolved and applied as a liquid. Rate: 0.3Kg-1.6Kg/100m² Pack Size: 22.68Kg

CONTROLLED RELEASE NUTRITION

Best Short Kut 22-2-8 + 1.85% Fe, 0.3% Mn 65% SAN	Mini-sized controlled release, homogenous fertiliser for tees and other closely mown turf surfaces. Rate: 1.1-2.7Kg/100m² Pack Size: 22.68Kg
--	---

UPFRONT NUTRITION

Best Mini Pro 12-3-13 + 3% Fe, 0.5% Mn	A high potash formulation to overcome potassium deficient soils. This complete homogenous pellet is a good choice for autumn applications. Rate: 2Kg-4Kg/100m² Pack Size: 22.68Kg
Best Mini Turf 16-3-6 Turf Supreme 16-3-6 + 1.5% Fe, 0.2% Mn	A mini-sized homogenous fertiliser prill for use on closely mown turf areas. Rate: 1.5-3Kg/100m² Pack Size: 22.68Kg

CONTROLLED and STABILISED NUTRITION

Best Cascade K 21-0.86-17 + 0.25% Fe (81% Gal-Xe One)	Premium slow release 4 particle blend for increases nitrogen longevity. Rate: 235Kg-345Kg/Ha Pack Size: 22.68Kg
Best N-FLEXX 22-1-8 + 5.8% Fe (79% UFLEXX)	Uflexx stabilised nitrogen provides longer lasting - slower growing turf response 79% of the total nitrogen is stabilised. 5.8% iron provides deeper green colour. Rate: 180Kg-360Kg/Ha Pack Size: 22.68Kg
Best Prostart 16-10-8 + 0.75% Fe (43% SAN)	A high phosphorus preplant / starter that utilises X-cote to extend nitrogen release to give your turf the ratio and timing of nutrient release for healthy plant establishment. Rate: 300Kg/Ha Pack Size: 22.68Kg
Best Turf Gold AU 22-1-4 + 3.3% Fe (43% X-Cote)	A combination of two proven, high quality products: professionally accepted evergreen and X-cote. A non-burning, controlled release fertiliser. Rate: 170Kg-330Kg/Ha Pack Size: 20Kg
GTS Enhance 34-1-6 2.5% Fe 30% XCU	A high nitrogen fertiliser that is ideal for use when a rapid turfgrass growth response is required. Rate: 150Kg-200Kg/Ha Pack Size: 20Kg
GTS High K 20-0-20 3% Fe, 1% Mn 50% XCU	A balanced N:K ratio of 1:1 for application where potassium is low or high potassium levels are required. Rate: 200Kg-300Kg/Ha Pack Size: 20Kg
GTS Maintain 26-2-9 3% Fe 70% Duration	A balanced all-round fertiliser providing effective green up, with extended feeding for turf managers without excessive flushes of growth. Rate: 150Kg-250Kg/Ha Pack Size: 20Kg
GTS Sportflexx 19-1-16 3% Fe 67% UFLEXX®	A well-balanced turfgrass fertiliser ideal for use on turfgrass areas where exceptional colour must be maintained. Rate: 200Kg-300Kg/Ha Pack Size: 20Kg

BIOLOGICALLY ENHANCED NUTRITION

Carbon Mineral Trace 8.5% Carbon + Trace Elements	Organically granulated minerals coated with a unique nutrient activator and soil catalyst. This unique balance of natural minerals ensures that the soils nutrient bank is complete for vibrant growth. Rate: 250Kg-1000Kg/Ha Pack Size: 25Kg
Carbon Coat Urea 46% N, 21% C	Urea with the added benefit of carbon for increasing energy, water and nutrient holding capacity. Rate: 100Kg/Ha Pack Size: 25Kg
Eco Start 3-3-2 + Traces	A blend of natural ingredients to supply essential nutrients that build a healthy soil and enrich plant health. Rate: 400Kg-800Kg/Ha Pack Size: 20Kg
GTS Colour Plus 20-0-16 5.0% Fe 78% Carbon Coat	Colour Plus provides a rapid greening and growth response while exhibiting a low burn risk. 78% N as Carbon Coat. Rate: 200Kg-300Kg/Ha Pack Size: 20Kg

Platinum High N <i>21-2.6-5.7 + Traces</i>	A balanced turfgrass fertiliser formulated using the unique Carbon King Urea coating. This coating is enriched with Pro-Tech Stimulate; a biological enhancement containing active microbiology, kelp, fish emulsion & carbon-fulvic humates. Rate: 200Kg-300Kg/Ha Pack Size: 25Kg, 1000Kg
Terralift TX10 Outfield <i>5-2-8</i> <i>4.2% Ca + Traces</i>	A multi-source organic fertiliser consisting of stable humus, seaweed extract, vegetable extract and proteins which are all used to increase CEC. Rate: 200Kg-600Kg/Ha Pack Size: 20Kg

STRAIGHT CONTROLLED RELEASE and STABILISED NUTRITION

Simplot Gal-Xe One Urea <i>43-0-0</i>	A patented reactive layer coated urea that gradually makes nutrients available to the turf. Rate: 100Kg/Ha Pack Size: 22.68Kg
Best X-Cote Urea <i>43-0-0</i>	The hardest, most durable polymer-coated sulphur-coated urea on the market. Rate: 100Kg/Ha Pack Size: 22.68Kg
Nexen Urea <i>46-0-0</i>	A urea granule coated with nitrogen stabiliser to slow the conversion of urea to ammonium, and dramatically reduce losses of nitrogen to volatilisation. Rate: 100Kg/Ha Pack Size: 25Kg, 1000Kg
N-Protect Urea <i>46-0-0</i>	Stabilised urea that keeps nitrogen in the stable ammonium form, allowing plants ready access with minimum risk of leaching. Rate: 100Kg-200Kg/Ha Pack Size: 25Kg, 1000Kg
Uflexx <i>46-0-0</i>	A urea granule coated with dual inhibitor technology to prevent nitrogen losses from leaching, denitrification, and volatilisation for up to 8 weeks. Rate: 100Kg/Ha Pack Size: 22.68Kg
Umaxx <i>46-0-0</i>	A highly soluble stabilised nitrogen that can be applied as a granular or dissolved and applied as a liquid. Rate: 30Kg-160Kg/Ha Pack Size: 22.68Kg

UPFRONT NUTRITION

Best Nitrex <i>20-0-2 + 5 % Iron</i>	A combination of two homogeneous pellets featuring 4.5% nitrate nitrogen. Rate: 120Kg-240Kg/Ha Pack Size: 22.68Kg
Best Turf Supreme <i>16-2-6 + 1.5% Fe & 0.20% Mn</i>	The ultimate dust free, homogeneous pellet. Nutritionally balanced as recommended by leading research authorities. Rate: 150Kg-300Kg/Ha Pack Size: 22.68Kg
Simplot FUSN <i>26-0-0</i>	A safe and socially responsible ammonium nitrate-based fertiliser that optimises plant uptake potential. Rate: 190Kg-380Kg/Ha Pack Size: 22.68Kg

High Cut Granular Fertilisers

Sulphate of Potash Granular <i>0-0-41</i>	A straight potassium in a granular form that can be used when potassium is needed without any nitrogen. Rate: 100Kg-200Kg/Ha Pack Size: 25Kg
Urea Granular <i>46-0-0</i>	A granular nitrogen in a 100% up-front form for use when rapid growth and colour is needed. Rate: 100Kg/Ha Pack Size: 25Kg, 1000Kg

COMBINATION FERTILISER + HERBICIDE

Farmalinx OxaFert® Herbicide & Fertiliser <i>16-2-6 1.5% Fe, 0.2% Mn, 10g/Kg Oxadiazon</i> <div>GROUP G HERBICIDE</div>	A combination product containing fertiliser and pre-emergent herbicide for the control of Crowsfoot Grass, Summer Grass, Winter Grass and Oxalis. Rate: 300Kg-400Kg/Ha Pack Size: 20Kg
---	--

Liquid Fertilisers

Agrichem GreenXtra <i>20-0-0 + 6% Fe & 1% Mg</i>	A liquid fertiliser containing stabilised Nitrogen, Iron and Magnesium that provides Xtra turf green up without excessive growth. Rate: 20L-50L/Ha Pack Size: 10L, 200L, 1000L
Agrichem GroCal® MGB <i>10-0-0</i> <i>17% Ca, 4% Mg, 0.1% B</i>	A calcium rich liquid formulation plus nitrogen and trace elements. Improves turfgrass health and counteracts the negative effects of sodium. Rate: 10L-20L/Ha Pack Size: 20L, 200L, 1000L
Agrichem Maxi Mang™ <i>50% Mn</i>	A high analysis manganese formulation from world-leading technology. Used for the correction of manganese deficiencies in turfgrass. Rate: 2L-10L/Ha Pack Size: 20L, 200L, 1000L
Agrichem Nitro Iron Advance <i>16-0-0</i> <i>7% Fe, 1% Mn</i>	A highly plant available liquid iron and manganese with a nitrogen carrier designed to correct iron deficiencies and maintain plant growth. Rate: 20L-50L/Ha Pack Size: 20L, 200L, 1000L
Agrichem Resilience <i>11.0% Si, 7% Ca, 5% K</i>	A specially developed formulation to increase turfgrass tolerance to wear, disease, and salinity while improving the quality of the playing surface. Rate: 5L-10L/Ha Pack Size: 10L
Agrichem Supa K 30 <i>0-0-30</i>	A highly available potassium source for hardening all turf surfaces and the promotion of sward strength. Rate: 10L/Ha Pack Size: 20L
Agrichem Supa Stand® Phos <i>6-10-3</i>	A premium starter fertiliser and stimulant for use following renovation or on newly seeded areas. Apply at early seed germination. Rate: 15L-20L/Ha Pack Size: 20L, 200L
Agrichem Supa Turf Iron™ <i>9% Fe</i>	An economical fast acting complexed iron for rapid greening and correction of iron deficiencies in turf. Rate: 20L-50L/Ha Pack Size: 20L, 200L

Agrichem TraceXtra™ 2% Mg, 1% Zn, 4% Fe, 1% Mn, 1% Cu, 0.5% B, 0.05% Mo	A multi trace element liquid formulation that has been specially designed for the requirements of premium quality turfgrass. Rate: 20L-50L/Ha Pack Size: 10L, 200L, 1000L
Agrichem Turf Maintenance Advance 10-1-20	A high potassium analysis NPK solution incorporating nitrification inhibitors and humic acid, optimal for intensively managed turfgrass. Rate: 50L-100L/Ha Pack Size: 20L, 200L
Forti-Phite Maxx 0-18-23 + 4SiO ₂	A revolutionary combination of potassium phosphite and silica enhanced with SIL-SHIELD MIXABLE SILICA. Rate: 5L-20L/Ha Pack Size: 9.46L
GMX Chelated Calcium 5% Ca EDTA	Fully chelated EDTA complex to assist in the correction of calcium deficiencies. Rate: 5L-10L/Ha Pack Size: 10L, 200L, 1000L
GMX Chelated Iron 7% Fe EDTA	7% Iron as EDTA complex EDTA chelate to induce excess chlorophyll for longer-lasting deep green appearance. Rate: 20L-50L/Ha Pack Size: 10L, 200L, 1000L
GMX Chelated Magnesium 5% Mg	Magnesium as Carboxylate Chelate to assist chlorophyll production for lasting green appearance. Rate: 20L-50L/Ha Pack Size: 10L, 200L, 1000L
GMX Control PK 0-20-30	A high analysis phosphorus and potassium formulation. Potassium is present as phosphite for improved plant response and stress management. Rate: 20L-40L/Ha Pack Size: 10L, 200L, 1000L
GMX High K Liquid 30% K as citrate	30% potassium in an organic citrate form, providing major advantages over inorganic salts. Contains no nitrogen, chlorides or sulphur. Rate: 20L-40L/Ha Pack Size: 10L, 200L, 1000L
GMX Manganese EDTA 6% Mn	Fully chelated EDTA complex for the correction of manganese deficiencies in turf. Rate: 3L-5L/Ha Pack Size: 10L, 200L, 1000L
GMX Socal 11%N, 16% Ca	A highly concentrated calcium and nitrogen fertiliser for the treatment and removal of sodium accumulated in soil profile. Rate: Initial: 100L-200L/Ha; Maintenance: 40L-60L/Ha Pack Size: 10L, 200L, 1000L
GMX Socal Less N 16% Ca	A highly concentrated calcium fertiliser for the treatment and removal of sodium accumulated in soil profile Rate: Initial: 100L-200L/Ha; Maintenance: 40L-60L/Ha Pack Size: 10L, 200L, 1000L
GMX Socal Mag 12% N, 12% Ca, 3% Mg	A highly concentrated calcium, nitrogen and magnesium fertiliser for the treatment and removal of sodium accumulated in soil profile. Rate: Initial: 100L-200L/Ha; Maintenance: 40L-60L/Ha Pack Size: 10L, 200L, 1000L
GMX Traces 4% Fe, 2% Mg, 1% Zn, 1% Mn, 1% Cu, 0.5% B, 0.05% Mo	A multi-trace element formulation that has been specially designed for the requirements of premium quality turfgrass. Rate: 20L-50L/Ha Pack Size: 10L, 200L 1000L
GMX TripleSil 15% K, 30% Silica	Supply silica and potassium to assist in turf hardening, wear resistance and health. Silica has an association with calcium in cell walls to further strengthen turf. Rate: 2L-3L/Ha Pack Size: 10L, 200L, 1000L

Liquid Fertilisers

LiquiMaxx 10-1-10 <i>10-1-10 + 0.5% Fe (Stabilised Nitrogen)</i>	Stabilised nitrogen and potassium fertiliser with added phosphorus and iron. Rate: 20L-50L/Ha Pack Size: 10L, 200L, 1000L
LiquiMaxx 12-0-20 <i>12-0-20 + 0.5% Fe (Stabilised Nitrogen)</i>	Stabilised nitrogen and potassium fertiliser with added iron. Rate: 20L-50L/Ha Pack Size: 10L, 200L, 1000L
LiquiMaxx 40-0-0 <i>40% Stabilised Nitrogen</i>	Delivers high concentrated stabilised liquid nitrogen over an extended period. Rate: 50L-70L/Ha Pack Size: 10L, 200L, 1000L
LiquiMaxx GreenMaxx <i>20-0-0</i> <i>6.0% Fe</i>	A premium blend of stabilised nitrogen, iron and magnesium to assist in the production of additional chlorophyll for deep green colour. Rate: 20L-50L/Ha Pack Size: 10L, 200L, 1000L
LiquiMaxx GreenMaxx Complete <i>17-0-0</i> <i>6% Fe, 1% Mg + Traces</i>	A combination of GreenMaxx's stabilised nitrogen with a balance of trace elements to provide a complete premium surface. Rate: 20L-50L/Ha Pack Size: 10L, 200L, 1000L
LiquiMaxx GreenMaxx K <i>15-0-10</i> <i>4% Fe, 1% Mg</i>	A premium blend of stabilised nitrogen with potassium, iron and magnesium to assist in production of chlorophyll for long lasting colour. Rate: 20L-50L/Ha Pack Size: 10L, 200L, 1000L
SiLiXOL <i>25g/L stabilised ortho silicic acid</i> <i>Providing 8g/L of Plant Available Silicon</i>	A foliar fertiliser containing Ortho Silicic Acid (OSA) for boosting the plants natural defence mechanisms in response to stress conditions. Rate: 250mL-1L/Ha Pack Size: 1L
Simplot DuraPhite <i>9% K & 2% Mn as Phosphite</i>	DuraPhite is a combination of potassium phosphite and manganese phosphite that is designed for use on turf, trees, shrubs & ornamental plants. Rate: 9L-16L/Ha Pack Size: 9.46L
Spraygro 42N* <i>42-0-0</i>	A liquid blend of urea, ammonium and nitrate for immediate and slower release of this essential nutrient. Rate: 50L-70L/Ha Pack Size: 20L
Spraygro Balance-15* <i>15-4-8</i> <i>50% SRN</i>	A general-purpose liquid fertiliser that contains slow release nitrogen which lasts for a period of 6-8 weeks. Rate: 80L-160L/Ha Pack Size: 20L
Spraygro Nitro 11 Hi-K* <i>11-0-15</i> <i>85% SRN</i>	A high potassium liquid fertiliser for use on turf to improve stress tolerance. Delivers maintenance levels of nitrogen for steady plant growth. Rate: 90L-180L/Ha Pack Size: 20L
Spraygro Nitro 35* <i>35-0-0</i> <i>60% SRN</i>	A high concentrate liquid nitrogen giving controlled release from an exclusive methylene urea nitrogen source for 8-10 weeks. Rate: 55L-135L/Ha Pack Size: 20L, 200L, 1000L
Spraygro Vision 20-20* <i>20-0-20</i> <i>85% SRN</i>	A liquid fertiliser with equal amounts of nitrogen and potassium for balanced growth and turf conditioning. Rate: 30L-80L/Ha Pack Size: 20L

*Products are available in select warehouses only. Contact GTS for more information.

Agrichem Kelpak® 100% Seaweed Concentrate 11mg/L Auxin, 0.031 mg/L Cytokinin	A 100% natural seaweed extract containing the plant hormones auxin and cytokinin to stimulate plant physiological processes. Rate: 5L-10L/Ha Pack Size: 20L, 220L
Agrichem OM-3™ 3-1-3	A complete organic concentrate containing humic acid, amino acids and kelp extract. Improves overall turf health and enhances CEC. Rate: 10L-20L/Ha Pack Size: 20L, 200L
Agrichem Supa Humus 26™ 26% Humic Acid	A blend of liquid humic acid and organic catalysts applied to the soil to increase microbiological activity Rate: 5L-10L/Ha Pack Size: 20L
Indigo BioForce MicroLife Microbial Amendment for turf and Amenity Horticulture	A unique concentrated microbial amendment that adds and supports Trichoderma & Bacillus species to the growing system. Rate: 3L/Ha (1L Part A + 1L Part B + 1L Part C) Pack Size: 6L
GMX Liquid Kelp Extra 3% N, 1.5% P, 0.5% K, 0.5% Zn 0.5% Fulvic Acids + Hormones	100% liquid kelp concentrate to deliver high concentrations of the plant hormones. Rate: 5L-10L/Ha Pack Size: 10L
GMX Organic Plus 2% N, 1% P, 3%K, 3% Humic & Fulvic Acid, 5% Seaweed, 10% Protein, 10% Amino Acids, 20% Carbohydrates	NPK combination of organic substances to assist in maintaining biodiversity, nutrient and water retention and promotion of larger root system. Rate: 30L-100L/Ha Pack Size: 10L, 200L, 1000L
GTS Ensure Hydrotherapy 10% Amino Acid, 1g /L Thiamine, 0.06g/L Root and Growth, 20% POE Block Polymer	A powerful concentration of Plant Growth Regulators, Amino Acids and Soil Surfactants. Designed to promote plant health and establishment. Rate: 10L-20L/Ha Pack Size: 20L, 200L
GTS Ensure Triple S Stress Support System	A proprietary formulation of plant active bio stimulants to supplement and support plant physiological functions in high stress conditions. Rate: 5L-10L/Ha Pack Size: 10L
Simplot AzoPro Turf Azospirillum brasilense 2.0 x 10 ⁵ per mL	Root growth stimulator for turf that contains Azospirillum brasilense a plant growth promoting rhizobacteria. Rate: 2.5L/Ha Pack Size: 3.8L
SprayGro Bull Kelp Plus* 5-0-0.5 select	A liquid formulation of freshly harvested seaweed kelp combined with slow release nitrogen as Methylene Urea to help increase root and shoot growth. Rate: 6L-10L/Ha Pack Size: 20L
Terralift Rocastem	A liquid aerator and root stimulator that works at microscopic level to hit and help the 90% of the root zone you don't get with mechanical aeration. Rate:10L/Ha Pack Size: 10L

*Products are available in select warehouses only. Contact GTS for more information.

Ammonium Sulphate Tech 21-0-0	A highly soluble form of nitrogen in the ammonium form for dark green colour and growth. Rate: 1Kg-2.5Kg/100m² Pack Size: 25Kg
Calcium Nitrate 16-0-0 20% Ca	Provides calcium and nitrogen in the soluble nitrate form for improved nutrient levels and growth. Rate: 2Kg-3Kg/100m² Pack Size: 25Kg
Ferrous Sulphate Heptahydrate 20% Fe	A highly soluble form of iron for turf colour. Rate: 20g-250g/100m² Pack Size: 25Kg
Haifa Poly-Feed™ 18-8-15	A high quality soluble NPK fertiliser for maintenance. Rate: 0.5Kg-1.5Kg/100m² Pack Size: 25Kg
Magnesium Sulphate Soluble 10% Mg	A soluble magnesium for nutrient deficiency correction. Rate: 200g-300g/100m² Pack Size: 25Kg
Mono Ammonium Phosphate (MAP) 12-27-0	A soluble phosphorus form to correct deficiencies and nitrogen in the ammonium form. Rate: 1Kg-2Kg/100m² Pack Size: 25Kg
Potassium Carbonate 0-0-50	A high concentration of soluble potassium in the carbonate form. Rate: 2Kg-3Kg/100m² Pack Size: 25Kg
Potassium Nitrate 15-0-30	Soluble potassium and nitrogen as nitrate for nutrient correction. Rate: 250g-700g/100m² Pack Size: 25Kg
Potassium Sulphate Soluble 0-0-41	Potassium in the highly soluble sulphate form. Rate: 2Kg-3Kg/100m² Pack Size: 25Kg
Simplot Extreme Green 16 16% Fe & 4% Mn	An extremely pure source of ferrous sulphate heptahydrate combined with manganese sulphate that is void of anti-caking agents, enabling rapid solubilisation. Rate: 62g-247g/100m² Pack Size: 22.68Kg
Simplot SP Bentgrass Formula 28-3-13 + TE (38% UMAXX)	A high-quality water-soluble fertiliser with UMAXX and micronutrients. Rate: 0.4Kg-1.8Kg/100m² Pack Size: 11.34Kg
Simplot Super Cal 15-0-15 + TE	A high-quality water-soluble fertiliser and micronutrients Rate: 0.68Kg/100m² Pack Size: 11.34Kg
Systacal Plus 0-19-0 12% Ca, 3% B, 1% Mn, 1% Zn, 0.04% Mn	A foliar fertiliser containing calcium phosphite and micronutrients that are efficiently delivered to the plant to stimulate plant defence responses and growth. Rate: 75g – 150g/100m² Pack Size: 15Kg

GREENS GRADE GRANULAR

Dolomite Greens Grade WDG <i>21% Ca, 12%Mg</i>	Granular calcium and magnesium carbonate as a WDG for correcting soil nutrient levels and adjusting soil pH. Rate: 500Kg-1000Kg/Ha Pack Size: 25Kg
GTS GypSand* <i>23% Ca</i>	A specifically developed gypsum for incorporation in to dusting and topdressing to improve the calcium concentration of the sand. Rate: Consult with your GTS Field Agent Pack Size: 1000Kg or Blended with Sand Size: 25Kg
Leonardite Dry Humate* <i>80% Organic Matter</i> <i>70% Humic Acid</i>	A granular amendment that improves the soils biological, chemical and physical characteristics to promote healthy turf growth. Rate: 1%-5% total volume of construction/topdressing material or 500Kg-1T/Ha Pack Size: 22.68Kg, 907Kg
Lime Greens Grade WDG <i>36% Ca</i>	Granular calcium carbonate for use on soils deficient in calcium and when the pH is acidic. Rate: 500Kg-1000Kg/Ha Pack Size: 25Kg
Profile Greens Grade <i>Porous Ceramic</i>	An inorganic soil amendment for blending with sand. Dramatically improves drainage, moisture and nutrient holding ability of sand root zones. Rate: 15% by volume of construction/topdressing material or 1.2T/Ha Pack Size: 22.68Kg
Profile Aqua-pHix Granular <i>Porous Ceramic + Chelated Acidifier</i>	A granular amendment for reducing pH and bicarbonate levels in the soil profile. Rate: Consult with your GTS Field Agent Pack Size: 22.68Kg
Simplot TruGyp Mini & Micro <i>21% C</i>	A new generation of granular calcium sulphate with outstanding granule quality for ease of application and rapid dispersion. Rate: 500Kg-1000Kg/Ha Pack Size: 22.68Kg
Terralift TX10 <i>5-2-8</i>	A multi-source organic fertiliser consisting of stable humus, seaweed extract, vegetable extract and proteins which are all used to increase CEC. Rate: 200Kg-600Kg/Ha Pack Size: 20Kg

*Products are available in select warehouses only. Contact GTS for more information.

Amendments

STANDARD GRANULAR

Dolomite Granular Coarse <i>21% Ca, 12%Mg</i>	Granular calcium and magnesium carbonate for correcting soil nutrient levels and adjusting soil pH. Rate: 500Kg-1000Kg/Ha Pack Size: 25Kg, 1000Kg
Granular Gypsum Coarse <i>21% Ca</i>	Granular calcium sulphate that corrects soil calcium levels and assists in soil flocculation. Rate: 500Kg-1000Kg/Ha Pack Size: 25Kg, 1000Kg
Indigo HydroForce CalWet Granular <i>20% Ca + 30g/Kg Soil Surfactant</i>	A combination of gypsum and block co-polymer soil surfactant in a 150SGN granule. Suitable for use during renovations on greens and fine turf or general maintenance on all other turf situations. Rate: 300Kg-1000Kg/Ha Pack Size: 25Kg
Kieserite <i>15% Mg</i>	A granulated magnesium sulphate that is easily applied to turfgrass and soils that require additional magnesium. Rate: 500Kg-1000Kg/Ha Pack Size: 25Kg
Lime Granular Coarse <i>36% Ca</i>	Granular calcium carbonate for use on soils deficient in calcium and when the pH is acidic. Rate: 500Kg-1000Kg/Ha Pack Size: 25Kg, 1000Kg
Terralift TX10 Outfield <i>5-2-8</i>	A multi-source organic fertiliser consisting of stable humus, seaweed extract, vegetable extract and proteins which are all used to increase CEC. Rate: 200Kg-400Kg/Ha Pack Size: 20Kg

LIQUIDS

Dropzone <i>5-0-0</i> <i>7% Ca, 0.5% Fe</i> <i>25% Organic Acids</i>	A blend of organic acids and nutrients essential for bicarbonate removal and soil recovery. Calcium removes salts while nitrogen and iron assist in plant growth. Rate: 2L-4L/Ha Pack Size: 10L
Terralift Rocastem	A liquid aerator and root stimulator that works at microscopic level to hit and help the 90% of the root zone you don't get with mechanical aeration. Rate: 10L/Ha Pack Size: 10L

Soil Wetting Agents

HydroForce CalWet Granular <i>20% Ca + 30g/Kg Soil Surfactant</i>	<p>A combination of gypsum and block co-polymer soil surfactant in a 150SGN granule. Suitable for use during renovations on greens and fine turf or general maintenance on all other turf situations.</p> <p>Rate: 300Kg-1000Kg/Ha</p> <p>Pack Size: 25Kg</p>
HydroForce Evolve <i>48% Proprietary Blend of Alkyl Sulphate & Dimethylsiloxane Surfactants</i>	<p>A true soil penetrant consisting of an anionic soil amending additive which modifies the surface tension of the hygroscopic (bound) water in the soil profile.</p> <p>Rate: 750mL-1L/Ha</p> <p>Pack Size: 1L</p>
HydroForce Extend <i>100% Propylene Oxide-Ethylene Oxide Block Polymer</i>	<p>A powerful, highly concentrated Soil Wetting Agent to overcome soil hydrophobicity, prevent dry patch and improve water penetration.</p> <p>Rate: 20L-50L/Ha</p> <p>Pack Size: 20L, 200L, 1000L</p>
HydroForce Inject <i>15% Proprietary Formulation of Non-Ionic Surfactants</i>	<p>A high quality thatch and soil penetrant surfactant blend, specifically designed to quickly and efficiently move water away from the foliage and thatch and into the growing medium.</p> <p>Rate: Boom: 2L - 5L / Ha ; Injection: 10L - 20L / megalitre of irrigation water</p> <p>Pack Size: 20L, 200L, 1000L</p>
HydroForce Rapid <i>40% Proprietary Formulation of Non-Ionic Surfactants</i>	<p>A high quality thatch and soil penetrant surfactant blend, specifically designed to quickly and efficiently move water away from the foliage and thatch and into the growing medium.</p> <p>Rate: Injection: 2L-5L/Ha, Boom Spray: 5L-50L/Ha</p> <p>Pack Size: 20L, 200L, 1000L</p>
HydroForce Recharge <i>80% Proprietary Formulation of Non-Ionic Surfactants 5-10% L-Form Amino Acids</i>	<p>A premium soil surfactant blend, specifically designed to prevent and overcome hydrophobic soil situations and improve water management processes.</p> <p>Rate: 20L - 50L / Ha</p> <p>Pack Size: 20L, 200L, 1000L</p>
HydroForce Ultra <i>100% Block Co-Polymer</i>	<p>HydroForce Ultra is a newly discovered Block Co-Polymer surfactant technology for enhanced adsorption to hydrophobic materials and to radically increase the wettability of treated surfaces.</p> <p>Rate: 12.5L-19L/Ha</p> <p>Pack Size: 10L</p>
Simplot Compel Plus Pellet <i>55% Alkyl Ethoxylates 44% Polyoxyalkylenes 1% Kelp</i>	<p>A syringe pellet for application on water repellent soils and for management of heat stress on fine turf.</p> <p>Rate: 1 pellet treats approximately 1100m²</p> <p>Pack Size: 16 Pellets/Box</p>
Simplot CounterAct FIRM <i>88% Polyoxyethylene-Polyoxypropylene Copolymer 4% Alkyl Polyethoxy Ethers</i>	<p>A high end soil surfactant chemistry designed to reduce water repellency in the soil, correct the causes of hydrophobicity and prevent the development of localized dry spot.</p> <p>Rate: 25L/Ha</p> <p>Pack Size: 10L</p>
Simplot CounterAct RETAIN <i>88% Polyoxyethylene-Polyoxypropylene Copolymer 4% Polyhydroxyalkyl Alkoxy Alkylene Oxide</i>	<p>A high end soil surfactant designed to retain water, reduce water repellency in the soil, address the causes of hydrophobicity and prevent the development of localized dry spot.</p> <p>Rate: 20L-25L/Ha</p> <p>Pack Size: 10L</p>
Simplot Forte <i>35% Ethylhexyl Esterified Butane Dioic Surfactant</i>	<p>Designed to alleviate soil water repellency, the cause of localised dry patch and enhance in-filtration and water movement in the soil profile.</p> <p>Rate: 400mL-2.4L/Ha</p> <p>Pack Size: 1.9L</p>
Summersoak	<p>Concentrated soil wetting agent to overcome localised dry patch and water repellent soil conditions.</p> <p>Rate: 50L/Ha</p> <p>Pack Size: 10L</p>

Anotec Pro5L	A liquid phase odour control agent for use with pesticide formulations. Rate: 10mL/400L Pack Size: 1L
Anti-Foam 1,000g/L Alcohol alkoxylate	A specially designed, non-ionic based surfactant that is fully bio-degradable and has ultra-low foaming properties. Rate: 20mL-50mL/100L Pack Size: 5L
Colin Campbell Blazon Polymeric blue colourant	A non-staining spray colourant for use with spray equipment to indicate areas that are sprayed. Rate: 200mL-300mL/100L Pack Size: 5L
Indigo Blue Dye 90g/L Sulphonated aromatic acid dye	A blue liquid marking dye to assist in clearer identification of sprayed areas. Rate: 100mL/100L Pack Size: 5L, 20L
Indigo Octane 859 g/L di-1-p-Menthene	A sticking-extending agent designed to control the life of pesticides. It is compatible in the spray tank with Insecticides, Fungicides and Soluble Fertilizers. Rate: 300mL-1.2L/Ha Pack Size: 5L
Oro-Turf 190.8g/L Anionic Surfactant 81.5g/L Alcohol Ethoxylate	A wetting agent for use on turf with insecticides, miticides, fungicides, herbicides, plant growth regulators and nutrients. Possesses excellent penetrating and spreading properties. Rate: 25mL-800mL/100L Pack Size: 10L
SST Boom Tank Cleaner Sodium Tripolyphosphate and Detergentsant	Decontaminates most pesticide residues, removes stains and scale deposits and helps protect from corrosion. Rate: 100g/100L Pack Size: 1Kg
SST Brushwet 1020g/L Polyether Modified Polysiloxane	A specialty non-ionic, organosilicone wetter and spreader to enhance some herbicide sprays on hard to kill weeds. Rate: 30mL-500mL/100L Pack Size: 5L, 20L
SST Companion 345g/L Soyol phospholipids 355g/L Propionic acid	A spray adjuvant that acidifies, improves penetration and reduces the risk of alkaline hydrolysis in the spray tank. Rate: 100mL-500mL/100L Pack Size: 1L, 5L, 20L
SST Driver 870g/L Alcohol alkoxylate and free fatty acids	A non-ionic, rainfast, general purpose wetting agent with low foaming qualities. Rate: 60mL-150mL/100L Pack Size: 5L, 10L
SST Enviro Dye Red 280g/L Diazo Dyestuff	A red liquid marking dye to assist in clearer identification of sprayed areas. Rate: 50mL-150mL/100L Pack Size: 5L
SST Kwicken 704g/L Ethyl and methyl esters of canola oil fatty acids 196g/L Non-ionic surfactants	An esterified oil-based product with non-ionic surfactants to assist the effectiveness of pesticide applications. Rate: 0.5L-1L/100L Pack Size: 20L
SST Marker Foam 300g/l Sodium lauryl ether sulphate	A biodegradable marking foam for chemical spraying. Rate: 1L-2L/100L Pack Size: 5L, 20L
SST Spreadwet 1000 1000g/L Alkoxylated alcohols	A non-ionic, biodegradable wetting and spreading agent for use with knockdown and residual herbicides. Rate: 10mL-400mL/100L Pack Size: 5L, 20L

Turf Colourants

Simplot Ambient Plus <i>100% Dark green pigment</i>	A highly effective dark green pigment concentrate designed to enhance turf colour. Rate: 1.2L-2.4L/Ha Pack Size: 3.79L, 113L
Turf Aid <i>Natural turf colourant and plant elicitors</i>	Turf Aid is a unique 3 part, liquid additive used to act as a visual spray application aid, enhance turf colour and improve plant health during stressful conditions. Rate: 300mL-2L/Ha Pack Size: 1L

Irrigation Water Treatments

Agrichem Irrisol Max <i>23% N, 24% S</i> <i>pH <1.0</i>	A specially modified acid for the neutralisation of bicarbonates and reduction of alkalinity in poor quality water sources and soils via injection systems. Rate: 90L-160L/Megalitre of Irrigation Water Pack Size: 200L, 1000L
Dropzone Injectable <i>50% Organic Acids</i>	An injectable blend of organic acids for the treatment of poor-quality irrigation water that is high in bicarbonates. Rate: Dependant on water quality. Seek advice from your GTS Field Agent. Pack Size: 200L
N-Acid <i>23% N, 24% S</i>	A specially modified acid for treatment of effluent and other poor-quality water sources via injection systems. Rate: Dependent on water quality Pack Size: 200L, 1000L

Water Treatments for Ponds & Dams

Agri-Tec Aquatic Algaecide <i>226g/L Copper Sulphate Pentahydrate</i>	Self-dispersing copper formulation to treat free floating algae, filamentous algae, chara and phormidium algae. Rate: contact GTS for application rates Pack Size: 5L
AquaspherePRO <i>Beneficial bacteria and enzymes</i>	A safe, natural and 100% biodegradable product to improve the clarity of bodies of water where sludge build-up and foul odours are a problem. Rate: 1.8 treats 1.8 megalitres 5.4 treats 5.4 megalitres Pack Size: 1.8, 5.4
Blast <i>Concentrated bacteria and enzymes</i>	A pond treatment that is 100% biodegradable to reduce sludge layer and target suspended organic matter that causes algae build-up. Rate: 1 water soluble bag treats 450,000L of water Pack Size: 12 x water soluble bags

Fleet Blinder	Blinder outshines every other product with its massive dilution range. Available in white and black. Dilution Rate: 2:1 – 20:1	Pack Size: 10L
Fleet Colour XS	Colour XS is a concentrated grass paint that can be diluted up to 4:1. Available in red, blue, yellow green and black. Dilution Rate: 4:1	Pack Size: 15L
Fleet Fastline	Popular concentrate used by small clubs and professional stadiums. Available in white and black. Dilution Rate: 4:1 – 8:1	Pack Size: 10L
Fleet Pitchmarker C	A low cost moderate concentrate to produce long lasting lines. Available in white only. Dilution Rate: 2:1 – 4:1	Pack Size: 15L

EliteStrike Seed - Ryegrass

EliteStrike Black Pearl <i>Perennial Ryegrass</i>	Elite turf perennial exhibiting excellent seedling vigour, winter activity, very dark colour & wear tolerance. Rate: 3Kg-5Kg/100m² Pack Size: 25Kg
EliteStrike Home Run LS <i>Perennial Ryegrass</i>	Perennial ryegrass exhibiting excellent vigour and recovery. Rate: 3Kg-5Kg/100m² Pack Size: 25Kg
EliteStrike Southern Star <i>Perennial Ryegrass</i>	A Perennial Ryegrass that will provide excellent turf quality under different management levels on sportsfields, landscape and amenity areas. Rate: 3Kg-5Kg/100m² Pack Size: 25Kg
EliteStrike Axcella II <i>Annual Ryegrass</i>	Annual ryegrass with a unique dwarf growth habit that exhibits greater shoot density, narrower leaf blades, less vertical leaf growth, and a darker green leaf colour than standard annual ryegrass cultivars. Rate: 3Kg-4Kg/100m² Pack Size: 25Kg

EliteStrike Seed - Ryegrass Blends

EliteStrike Black Gold <i>Perennial Ryegrass Blend</i>	A blend of leading Seed Research varieties with great colour, density and wear tolerance. A great option for sports field oversowing. Rate: 3Kg-5Kg/100m² Pack Size: 25Kg
EliteStrike Drylands <i>Perennial Ryegrass Blend</i>	Economical ryegrass blend for overseeding warm season turfgrass surfaces. Rate: 3Kg-5Kg/100m² Pack Size: 25Kg
EliteStrike Replay <i>Perennial Ryegrass Blend</i>	A perennial ryegrass blend with excellent quality, performance and value. Replay Blend brings together all the essential qualities required for a premium turf surface. Rate: 3Kg-5Kg/100m² Pack Size: 25Kg

EliteStrike Seed - Utility Blends

EliteStrike Golf Rough <i>Fescue Blend</i>	A 50/50 blend of Sheeps and Hard Fescue for use in roughs and reclaimed areas with low input. Rate: 2Kg-3Kg/100m² Pack Size: 20Kg
EliteStrike Links Blend <i>Fescue Blend</i>	A blend of Chewings and Creeping Red Fescue with excellent salt tolerance and fine texture to provide a traditional links look. Rate: 2Kg-3Kg/100m² Pack Size: 20Kg
EliteStrike Race Track Blend <i>Ryegrass and Bluegrass Blend</i>	A blend for use on cool season race tracks. Rate: 3Kg-4Kg/100m² Pack Size: 25Kg

007 <i>Creeping Bentgrass</i>	An advanced generation bentgrass. It was selected for improved Dollar Spot resistance, bright dark green leafy colour, excellent winter colour with no purpling and a vigorous, uniform, moderately dense growth habit. Rate: 0.5Kg-1.54Kg/100m² Pack Size: 11.36Kg
777 <i>Creeping Bentgrass</i>	An advanced generation creeping bentgrass with the ability to form a dense turf under close mowing for a better putting surface and improved poa resistance. Rate: 0.5Kg-1.5Kg/100m² Pack Size: 11.36Kg
Flagstick <i>Creeping Bentgrass</i>	A versatile variety that has high density, rapid tillering, quick establishment with high resistance to many fungal diseases. Rate: 1Kg/100m² Pack Size: 11.36Kg
Dominant X-Treme <i>Creeping Bentgrass Blend</i>	A blend that is recommended for use in areas such as golf and bowling greens as well as in oversowing older poor performing varieties. Rate: 1Kg/100m² Pack Size: 11.36Kg

We can also custom blend seeds to fit your requirements upon request.
Discuss the availability of all seed varieties with your GTS Technical Field Agent.
