with CONFIDENCE

PITCHMARKER C TECHNICAL DATA SHEET

**Non-toxic - APEO free - easily mixed - water based - low VOC level
extremely bright - highly rain resistant - environmentally friendly**

Pitchmarker C is the most ecologically friendly line marking liquid currently on the market. This marking liquid is 'elite' in its 4:1 dilution range with high brightness and amazing dilution and settlement properties.

Pitchmarker C is a low-cost moderate concentrate.

Pitchmarker C is an ideal product for application on grass and for use with spray marking machines.

- Available in 15L buckets
- Available in white only
- Dilution rate between 2:1 and 4:1 for optimum performance

Fleet recommend dilution instructions:

- Dilute at **2** parts water to **1** part Pitchmarker C for initial marking
- Dilute up to **4** parts water to **1** part Pitchmarker C for over marking
- **15** litre bucket makes up to **75** litres of paint

CONCENTRATED LINE MARKING PAINT

PITCHMARKER C LINE MARKING LIQUID

COMPOSITION

Vinyl acrylic water-based line marking paint

PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Flowable liquid
Odour	Slight
pH	7.2 +/-0.5
Boiling point:	Approx. 100°C
Viscosity (poise):	1.0+/-0.3
Specific gravity:	1.5 to 1.6g/cm ³
Solids:	62%+/-0.1
Water solubility:	Fully miscible
Drying:	30 Minutes

Transport Information: Blinder is NOT classified as hazardous for transportation
